---

Dear all,

a new iLCSoft developers release v01-19-04 is available.

This is a patch release to v01-19-03 ( and originally was called v01-19-03.p01) with some fixes for the ILD simulation models.

Please note that this release requires at least gcc4.9

Please use the corresponding ilcinstall tag for installation:

```
svn co https://github.com/iLCSoft/ilcinstall/tags/v01-19-04
```

Reference installations are available at

```
/afs/desy.de/project/ilcsoft/sw/x86_64_gcc49_sl6/v01-19-04 # SL6 gcc 4.9  
/cvmfs/ilc.desy.de/sw/x86_64_gcc49_sl6/v01-19-04 # SL6 gcc 4.9
```

There is also an ILDConfig release v01-19-04 that has steering files for running the new simulation and reconstruction for ILD with this release:

```
svn co https://github.com/iLCSoft/ILDConfig/tags/v01-19-04
```

For instructions see:

```
https://github.com/iLCSoft/ILDConfig/blob/master/StandardConfig/lcgeo_current/README.md
```

Please report problems and questions related to this release in this thread.

For changes wrt. v01-19-03, see:

```
https://github.com/iLCSoft/iLCInstall/blob/master/doc/release_notes_ilcsoft_v01-19-03.p01.md
```

( v01-19-04 is identical to v01-19-03.p01 )

Frank, for the ilcsoft team.
